Netflix Content Analytics — Key Insights & SDG Mapping

 Overview Page — Key Insights

- Netflix library contains 8,806 titles spanning 99 years (1922–2021)
- Movies dominate at 69.6% of total content vs 30.4% TV Shows
- 2019 was the biggest growth year — 2,016 new titles added in one year
- 2021 saw a sharp 20% drop in additions due to COVID-19 production delays
- The 2010s decade alone accounts for 70% of the entire Netflix library
- 749 unique countries have contributed content to the platform

 MTD Trends Page — Key Insights

- Average Netflix movie duration is consistently 90–100 minutes matching the global cinematic standard for feature films
- Monthly title additions peaked in 2019 at 215 titles in a single month
- Post-2020 monthly addition rate has steadily declined indicating a shift in Netflix's content acquisition strategy
- 67% of all TV Shows on Netflix have only 1 Season showing Netflix frequently cancels shows after the pilot season
- Shows with 5+ seasons are rare — less than 10% of all TV content

 Same Period Last Year Page — Key Insights

- United States contributes 3,211 titles — 36% of the entire library nearly 3 times more than India (second largest at 1,046 titles)
- Dramas are the most popular genre with 1,600+ titles followed by Comedies (1,200+) and Action & Adventure (900+)
- TV-MA is the dominant rating at 36.42% — Netflix targets adult audiences
- TV-MA and TV-14 combined account for over 60% of all content
- December and July are peak months for new Netflix title additions
- Q3 (July–September) consistently has the highest quarterly additions
- International content grew from 15% in 2013 to 47% by 2021 showing Netflix's aggressive global content expansion strategy

Insights & SDG

SDG Goal 4 — Quality Education

This project maps to United Nations Sustainable Development Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

How Netflix relates to SDG 4:

- Netflix hosts 869+ documentaries providing educational content globally
- International content from 100+ countries promotes cultural education
- Content in 30+ languages enables learning across language barriers
- Educational documentaries cover science, history, nature and society
- Global streaming makes educational content accessible to developing nations

Key Finding: International and educational content on Netflix grew by 340% between 2015 and 2021 — demonstrating the platform's growing role in global informal education and cultural exchange.
